Marnie Greenberg, who has co-led Dr. Yuen's Live Seminars all over of the USA and in over 30 countries, will share the success she has had with the Yuen Method. She is able to generate revenue anywhere in the world she chooses to be as long as she has her phone and an Internet connection.

Marnie has achieved clinical results for large audiences, Fortune 500 company execs, movie stars, international music legends, professional athletes, martial artists, many well-known personalities, health care professionals, and individuals from all walks of life.

Utilizing her Yuen Method Mastery skills, she will direct you to achieve not only immediate results for life problems, but generate meaningful revenue and have a lucrative and respected career based solely on the Yuen Method's Science of Immediate Results, not relying on the emotional distractions of passion, compassion and love.

She earned her university degree in business, and successfully markets and promotes other doctors' seminars and workshops.

Marnie Greenberg has her own company and website, MarnieGreenberg.com, and is expanding the Yuen Method to the world. As a powerful feminine leader, she provides quality services to improve the lives of other women.

By incorporating her expertise in the Yuen Method and Internet marketing, she has attracted hundreds of thousands of followers in a very short period of time.

As a successful entrepreneur, she was generating more than two million dollars a year, before she was thirty years old. She then took a long sabbatical. Her main reason and purpose in returning is to direct women to have an independent career and become a self-expert, so that they do not have to rely on anyone for their well-being or financial support. Women can stay home and take care of their young children, and generate more income online than commuting to work (generating even more income than their spouse), and simultaneously improving the quality of people's lives.

This is true because women in general have more intuition and insight than men to resolve life problems and answer all questions.
